

DESIGN YOUR OWN BUCKET TRUCK

In the space below, design your very own bucket truck! Will it have monster truck wheels? A rocket booster? Super speed?

Have fun but don't forget to add the most important part... the bucket! That's what helps lineworkers safely reach power lines high in the air!

SAFETY TIP

Tell an adult if you see a damaged pole, broken wire, or sparking line!

AMPED UP | Every bucket truck needs a team! Create a name for your own
CHALLENGE | electric cooperative and write it next to your drawing.
