

DRAW WHAT YOU SEE!

Grab a parent or guardian and head outside on a Power Line Lookout! Look up and find the power lines that bring electricity to homes and communities just like yours! Draw what you see in the space below!

AMPED UP CHALLENGE

Storm Lookout! Work with an adult to build a storm kit (flashlight, batteries, water, food, first aid). Talk about your plan when storms happen!

What do you see?

- How many power lines can you count between two poles?
- Do you see a transformer (the round “can” at the top of some poles)?
- Can you spot where the lines connect to a home or building?
